

Dermapen™

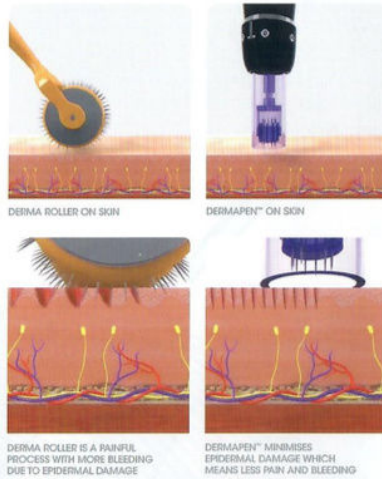

Dermapen™ is a revolutionary micro-needling treatment, which aims to tighten, lift and rejuvenate the skin.

Dermapen™ Awarded "Best Professional Skin Rejuvenation Device" at The Aesthetic Show™ (TAS) USA

CE 1023

Derma Roller v Dermapen™

Dermapen™ promotes scar less healing and natural collagen reproduction, similar to fractional laser treatments, IPL, laser resurfacing, and chemical peels, but without the side effects and downtime.

Dermapen™ can effectively treat hard-to-reach places (e.g. around the eyes, nose, and lips).

Dermapen™ is ideal for treating:

- fine lines
- wrinkles
- surgical, acne and trauma scars
- stretch marks
- pigmentation

Before and After Treatments

"Patients treated with the Dermapen™ unanimously felt that the procedure was much less painful than the Dermaroller and the downtime was significantly shorter."

Results from clinical trial of 60 patients conducted by professor Tony Chu (UK) 2012

Clinical Patient Post-Treatment Information

During the skin healing process, minor itching, flaking or redness may appear. If symptoms persist, please call your Dermapen™ practitioner.

Please avoid the following activities for up to two days following a Dermapen™ clinical procedure:

- Direct UV exposure
- Intensive cardio
- Excessively hot showers
- Further clinical treatments including microdermabrasion, laser, IPL, chemical peels, dermal fillers
- Spray or self-tanning
- Swimming in chlorine pools or the oceans
- Tattooing (including cosmetic tattooing)

Light oil-free make up may be applied 24 hours post-procedure. If you are in any doubt about any of the above activities, please call your Dermapen™ practitioner for clarification to when normal activity may be resumed.

Book an appointment with your qualified therapist today. Discover more exceptional treatments at www.naturastudios.co.uk or call 0333 358 3904 for further information.
